

Dengie Leisure Balancer

A balanced diet is required to keep horses and ponies in good condition and to allow them to perform the work you ask of them.

Dengie's Balancers have been formulated to complement all of the Dengie fibre feeds and are free from molasses and so are very low in sugar and starch.

Leisure Balancer has been formulated for horses and ponies in light work.

USEFUL INFO:

- Molasses free - ideal for horses and ponies that require a low sugar diet
- Alfalfa - for highly bio-available vitamins and minerals that are easy for a horse or pony to absorb
- Linseed - high in omega 3 essential fatty acids for exceptional coat shine and condition
- Herbs - rosemary and thyme are added for palatability and as a source of antioxidants
- Chelated minerals - trace minerals such as copper are vulnerable to interactions with other minerals in the gut. Chelating them protects them so that the horse can absorb them more efficiently
- Shelf life = 6 months, 15Kg bag

FEEDING GUIDE

	Size guide (hh)	Approx. weight (Kg)	Amount of Balancer Required (grams/day)
Small Pony (e.g. Shetland, welsh A)	9 - 12.2	200	200
